Top 5 Most Common Injuries

**Top 5 Most Common Injuries**

This chart spotlights the five leading injury types, with fractures ranked highest. Orange bars highlight key categories for instant visual clarity.

Injury Incidence by Age and Gender

Close

**Injury Trends by Age and Gender**

The chart shows higher injury counts among females, especially ages 31-35, with orange and teal bars visually separating gender groups for quick comparison

Total Injuries by Surface Type

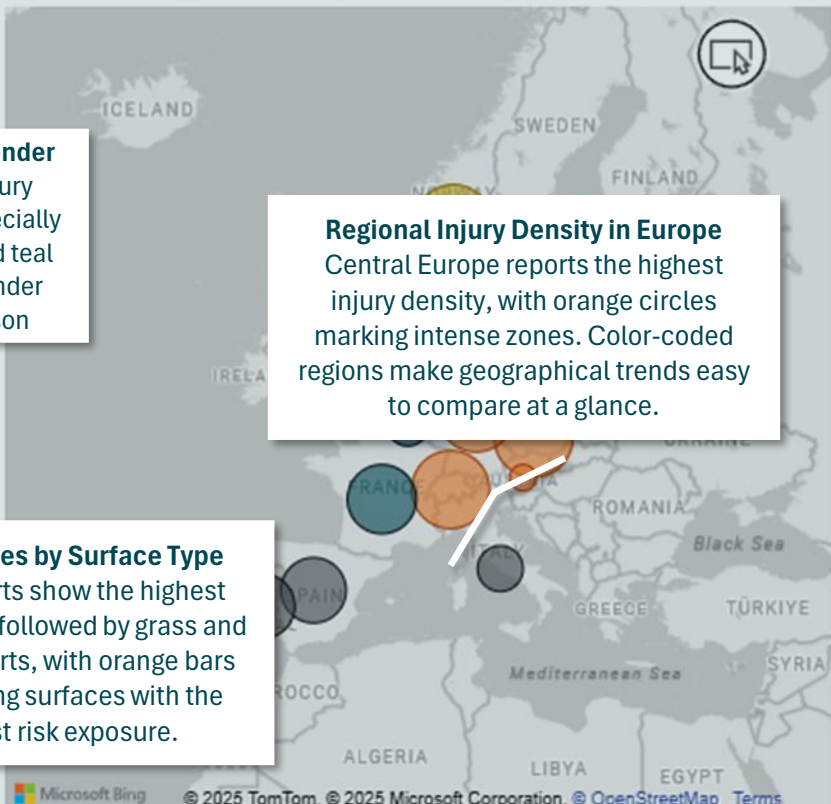

**Total Injuries by Surface Type**

Indoor courts show the highest injury count, followed by grass and outdoor courts, with orange bars emphasizing surfaces with the greatest risk exposure.

Where It Hurts: Regional Injury Density

Central Europe Northern Europe Southern Europe Western Europe

**Regional Injury Density in Europe**

Central Europe reports the highest injury density, with orange circles marking intense zones. Color-coded regions make geographical trends easy to compare at a glance.
